Things You Need to Know

With Health Net Seniority Plus Employer (HMO), your Medicare benefits are administered by Health Net. Health Net is the primary payor for all Medicare-covered benefits. You still retain your Medicare card but receive Medicare-covered services through the Health Net Seniority Plus Employer (HMO) network of providers.

Your plan includes pharmacy coverage. We've taken care to ensure that our Prescription Drug Plan for Medicare offers coverage for many commonly prescribed, brand-name drugs. Even if your physician changes your medications, your new prescription will most likely still be on our list of covered drugs.

We know how important it is to have a close relationship with your doctor

With our large network of providers and hospitals, we will most likely have your primary care physician (PCP) in our network.

PCP COORDINATES CARE

Your Health Net Seniority Plus Employer (HMO) PCP is the focal point for all contracted medical care you receive through Health Net Seniority Plus Employer (HMO). Your PCP will diagnose and treat your illness or condition, referring you to a specialist when necessary.

If you do not select a PCP or physician group when you enroll, Health Net will automatically assign one to you based on your address. You can change your PCP or physician group by calling Member Services at the number listed on the back cover or by logging in to healthnet.com/lausd. You must use plan providers except in emergency or urgent care situations. If you obtain routine care from out-of-network providers, neither Medicare nor Health Net Seniority Plus Employer (HMO) will be responsible for the costs.

Choosing your doctor

With our vast Seniority Plus HMO network of physicians and other specialists, finding a doctor is easy:

- **Log in to healthnet.com/lausd** and click on ProviderSearch. You can search by name or specialty, find out if the doctor is accepting new patients and even get a printable map or driving directions.
- **Call Member Services** at the number listed on the back cover for assistance.

Hospital coverage and medical emergencies

Your PCP will handle all of the care you need and will arrange all non-emergency hospital admissions. For medical emergencies, call 911 (in areas where the system is established and operating) or go to the closest emergency facility. Do not worry about whether it is a Health Net network facility. Immediately following an ER visit, call your PCP to inform your doctor of your situation so that your doctor can help with any additional care.
